

Our Bill Review Services vastly reduce bill review charges by scanning and imaging bills to acquire data, reducing provider charges to the correct fee schedule or UCR, and performing manual audits on bills that require additional review before validation.

## BENEFITS:

- Vastly reduces Bill Review charges
- Manual audits ensure all charged services are valid
- With Bill Review services clients receive additional PPO and partner re-pricing savings
- Extensively leverage medical bill analytics for fraud identification, provider profiling and process optimization
- Leverage automation to reduce cost per claim and improve accuracy and outcomes

## PPO/PARTNER RE-PRICING

We offer comprehensive re-pricing negotiation services with options beyond the capabilities of your current bill review solutions. Our agreements with industry-leading PPO partners deliver the best rates for our clients, allowing you to save on medical expenses.

# BILL REVIEW

### Specialty Re-pricing:

■ In addition, APS uses re-pricing specialists integrated within our solution to deliver additional savings on complex hospital, surgical and medical bills through expert review. This includes:

- Complex review services
- Implant re-pricing
- Specialty bill review
- Retro contract repricing of specialty networks

### Negotiation Services:

- Re-pricing negotiation saves additional money on top of APS Bill Review savings
- Our negotiated discounts with PPO partners ensure the best rates
- Achieve measurable increases in cost savings and penetration

### Specifications:

- We receive the claim feed from your claims system (most can be accepted in their current form)
- APS accesses medical bill images from your mailroom or image/claim system
- We convert data, exporting all images and repriced data back into your claim system

## APS MANAGES IT FOR YOU

- Contractual relationships with in-network and out-of-network solutions
- Service level agreements
- Provider inquiries
- Network communications
- Reporting
- Invoicing and savings reconciliation
