

## Zero Risk. Efficient Claims. Direct-to-Savings Results.

In the workers' compensation industry, your ability to quickly and efficiently process claims depends on your adjusters and their workflow system.

With each claim, they must be transparent and efficient as they process countless documents while navigating ever-increasing industry rules. This leaves your business at risk every step of the way.

At APS, we designed **CLAIMExpert Direct** to boost claims management efficiency and deliver savings with zero risk. With **performance-based pricing**, you only pay when you save—no upfront costs, no hidden fees, just clear, measurable results.
