KEY DIFFERENTIATORS

Proven Performance in Automated Claims Processing

APS's solutions demonstrate significant impact in the insurance industry. Our proprietary CLAIMExpert platform reduces medical spend by 21%, maximizing adjuster effectiveness, and closing claims 10% faster, saving clients money.

Recognition as Industry Leaders

APS is rated as a top ten claims processing and management provider by insurance industry leaders, reflecting a commitment to delivering value and meaningful results.

Advanced Technology Infrastructure

APS runs computer intensive OCR, data discovery, and machine learning processing on IBM Cloud bare-metal servers—with object storage for secure, long-term retention. This architecture handles over 50 TB of historical data efficiently while maintaining compliance and operational resilience.

Comprehensive, End-to-End Solutions

APS offers a proprietary rules-based, data-processing platform to automate workflow, maximize cost savings and efficiency gains, and encourage productivity. This platform can be adapted to deliver the same level of efficiency to fit any operational need.

SAMPLE CASE STUDIES

Outsourced Claim Document and Workflow Automation

APS developed and deployed a custom claim document intake and processing workflow for a large national insurer. The APS/Client partnership has resulted in a **30%** reduction to operational expenses and the removal of **25%** of inaccurate or inappropriate provider billings over a three year period.

Claims Processing Platform for National Insurance Provider

APS deployed our proprietary, rules-driven medical bill processing engine for a national insurance provider. The platform cut resolution time by **50%**, integrating seamlessly with legacy systems and external data sources, minimizing manual processing tasks.

Insurance Claim File Organization and Document Management Solution

APS developed and deployed a Healthcare document classification and organization solution for a national insurance provider. The solution provides adjuster and clinical teams with highly organized and searchable claim content, reducing adjuster file management efforts by **80%**.

Healthcare Compliance Management

APS engineered a secure compliance and intake portal for a multi-site healthcare organization, enabling centralized audit tracking and reporting. The result was a **50%** decrease in compliance issues and improved regulatory visibility.
